Course Description:

This course emphasizes the practices and principles shared by all photographic media but focuses on black and white film photography. You will be assigned to shoot one roll of film (24 or 36 exposures) per week, bring in selected prints for reviews, and finally produce one body of work under your own theme. The foundation of photography is accomplished by a rigorous work routine of shooting, editing, and learning other photographers' work. In return, you will experience surprises, pleasures, and a great sense of achievement. Essential techniques and concepts will be discussed through lectures and presentations.

Student Learning Outcome:

Demonstrate a working knowledge of wet darkroom processes to create photographs using a 35mm camera
