All due dates are set approximately one week after the relevant material is discussed in class. These due dates are fixed to allow for uniform distribution of course load throughout the quarter. Each assignment comprises a number of homework credits equal the number of problems in the assignment. These credits will be scaled at the end of the quarter to a maximum of 75 course points.

Written Assignments:

These assignments correspond to the sections covered in the text book, and they are available in PDF format on the faculty computer in S44. Bring a USB and ask for help to download. The PDF files will be mailed to you on your email address on the DeAnza records. Print each assignment back to back and bring with you to the classroom based on the daily schedule for the course. There are three due dates for these assignments. You are to stable in order and hand in assignments that correspond to sections covered on each test on the day of test. Each assignment is worth 10 credits and the total for the course will be scaled to a maximum of 35 course points.

Testing

We are going to have 3 tests and a final exam and four quizzes. The tests are worth 50 points each, the final exam counts for 100 points, and the total for all the quizzes is 40 points. Grading:

The course grade is based on the fixed scale below. Grades aren't given to you, they are earned by your desire and willingness to be consistent, persistent and hardworking . There are three components to the total grade in this course, in-class tests and quizzes, homework, attendance, and a final exam. The Final grade is based on the formula and the scale below
